

## **Declaration of Intended Major Programme (SCI) – 1 March to 14 March 2017**

Dear students,

All first year students admitted to the broad-based programme of the Faculty of Science are now invited to declare intended major programmes.

Please follow the steps below to declare your intended major programmes via BUniPort from March 1 to 14, 2017:

- 1) Login to BUniPort
- 2) Click "My e-Application" > "Online e-Application" > "Registration & Study Progression" > "Application / Declaration of Major"
- 3) You will be required to indicate preference for THREE departments and the most preferred programme/concentration in the department. Please prioritize the department from 1 to 3, where 1 indicates your most-preferred department while 3 indicates the least-preferred department. Please also input "1" to the most preferred programme/concentration in the selected departments.

You will be invited to prioritize your application for major programme from June 8 to 10, 2017 after the release of academic results of Semester 2, 2016/17. You will be notified by email again near the event in June.

The final result of your assigned major programme will be released around mid July 2017.

Best regards,  
Faculty of Science
